SUMMARY

Full stack developer, leveraging 7+ years of transferable skills such as troubleshooting, time management, team communication and conflict resolution. Past professional experiences that overlapped with development work sparked a new passion for the profession.

TECHNICAL SKILLS

Languages: HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
Applications: Visual Studio Code, Git Bash, Git Hub & Git Lab.

PROJECTS

WallStreet Simulator|
https://github.com/Halvosaurus34/Project-1 |
https://halvosaurus34.github.io/Project-1

- A website where you can buy and sell stocks with simulated currency, view updated stock information and view relevant financial news.
- My main responsibilities within this project were to implement financial API's and news API, financial graphs, and polish main look of the website.
- Used HTML5, CSS3, Javascript, JQuery, Bootstrap, moment.js & chart.js.

EXPERIENCE

Wireline Supervisor   2015 – 2020
Versaline Services   Red Deer, AB

- Led a team to complete a one month abandonment project that included work on 70 different wellsites without lost time or any injuries. Out performing competing wireline companies within the same project.
- Worked within a team that investigated the gas leak in Simi Valley, California.
- Completed a one month training course for 3D sonar mapping tools in Manosque, France.
- Trained many new hires the ins and outs of working as a wireline operator.
- Exceeded company needs within many winter projects and won more work from that company for Versa-Line.

Wireline Operator   2013 – 2015
Lonkar Services   Red Deer, AB

- Lifted, installed and removed equipment in extreme weather conditions.
- Drove heavy equipment to and from oil and gas sites.
- Ensured equipment was clean and maintained properly.
